

# Environmental & Sustainability Policy

As a leading manufacturer of custom litho-laminated corrugated boxes, Accurate Box is committed to operating in an environmentally responsible and sustainable manner for the benefit of present and future generations. Accurate Box aims to minimize our environmental impact from operations and products by implementing an environmental management system according to the highest ethical and regulatory standards. Accurate Box aims to:

- Act as a good environmental steward in the community where we operate.
- Design and manufacture products that meet our customer's expectations, while minimizing our carbon footprint.
- Source sustainable materials from vendors committed to maintaining, overseeing, and improving sustainable forest lands and forestry growth.
- Requesting suppliers apply standards similar to ours and regularly evaluate their sustainability performance.
- Reduce consumption of natural resources in daily operations through efficiency, conservation, and minimization procedures.
- Reduce waste by maximizing the reuse and recycling of resources both onsite and downstream.
- Minimize carbon emissions resulting from stationary and mobile combustion sources.
- Establishing quantitative targets and transparently reporting our performance against these regularly.
- Provide training, education, and resources to all employees whose activities might impact the environment.
- Continuously improve our environmental and product management systems by setting objectives and targets aimed at preventing pollution and risk.

All Accurate Box employees share the responsibility and accountability for environmental compliance by carrying out the principles stated in this policy and working as per our core values of Customer Focused, People, Integrity, and Teamwork. We are committed to providing the necessary resources to implement this policy, and we will regularly conduct audits to measure performance and effectiveness. This policy shall be communicated and made available to the public and advisory board to promote awareness and engagement among our key stakeholders.
